

Summing ticket charges

Ben Henley - 2018-05-14 - Comment (1) - DPQL Examples

:If you want to get the sum of all charges on a ticket, you can do this

```
SELECT tickets.subject, TIME_FORMAT(SEC_TO_TIME(SUM(tickets.charges.charge_time)),  
"%Hh %im') AS 'Charge Time
```

```
FROM tickets
```

```
'GROUP BY tickets.id AS 'ID
```
