

Changed meaning of unassigned tickets

Chris Padfield - Comment (1) - Release Announcements - 2014-03-20

For a while, DeskPRO's logic for the Unassigned tickets listed below was to include tickets that were not assigned to a specific agent

Whether a ticket was assigned to a team or not, had no effect on whether the ticket was listed as Unassigned

As per 20th March 2014, this functionality has changed. An unassigned ticket is a ticket that is neither assigned to an Agent or an Agent Team

We believe this change helps those companies that use the team structure extensively. Tickets can be assigned to an agent, a team, both or to nothing. Only "nothing" would now make the ticket unassigned

If you want to be able to find tickets that are assigned to a team, but not an agent you can create a custom filter
