

Deskpro 2019.7.2 Release

Christopher Nadeau - Comment (1) - Release Announcements - 2019-09-11

We are pleased to announce the release of Deskpro version 2019.7.2. This is a hotfix .release to address two bugs as described below

:Bug Fixes

- CH-2682 Rendered raw HTML in exception message: A 404 error message could •
.render raw HTML from the path provided
- CH-2710 Article editor opens content of another article: When multiple articles are •
.open at the same time, clicking "edit" will always have the content of the first article
