We are pleased to announce a new release of the DeskPRO helpdesk platform, build #208.

The following is an automatically generated list of changes in this release:

- Clean up DeleteSpamTickets to get rid of orm use and fixes issues with ticket log trying to run
- Fix scrolling in the snippet overlay. Ensure that ticket snippets that are still text-based display line breaks correctly in the overlay.

If you are using the cloud version of DeskPRO, your account will have already been updated or will be updated within the next 24-48 hours.

If you are using DeskPRO download, you can update your installation from the admin interface.
