

## DeskPRO Build #406 Released

Chris Padfield - Comment (1) - Release Announcements - 2015-06-09

.We are pleased to announce a new release of the DeskPRO helpdesk platform, build #406

:The following is an automatically generated list of changes in this release

- NEW New trigger criteria for testing for bounced emails or automated emails (based •  
(on DeskPRO's detection algorithms
- FIX Agent: Editing custom fields might save choice fields even if the field isn't •  
(enabled on a layout (only if the choice field is set to required
- FIX CSV user import errors in some cases when attempting to save blank custom •  
field value
- FIX The 'minute' option on default SLA hours was not being saved properly •
- FIX SLA working days option may be invalid if Sunday or Monday are selected due to •  
difference in storage format
- FIX Bounced emails from mailer daemons would result in the mailer being added as a •  
user CC to the ticket
- FIX Agent: Edit link from newly added billing/timelog rows •
- FIX Admin: Pre-defined icons for teams/departments did not work •
- FIX Agent: Change user action needed merge permissions. It now uses the "change •  
.user owner/ccs" permission

.This update has been rolled out to all Cloud customers
