

## DeskPRO Build #5.2.3 Released

Lauren Cumming - Comment (1) - Product - 2016-12-14

### Fixes

- Tab index is fixed on user portal login - you can press the 'Tab' button to move from .email to password etc
- UI issue where some drop down menus in the agent interfaces were not disappearing after clicking away from them
- Inability to create a linked ticket or change the user of a ticket due to search not working
- Ability to change an agents name through embedded chat widget in website
- Mass action validation check (for mandatory agent fields) should not apply to tickets marked for deletion
- Fix errors in anonymous API endpoints if API logging was enabled for "session" type
- Fix copy to clipboard function in various places in admin interface
- Fixed ability to mass reply to tickets
