

## Deskpro Horizon Release 2023.41

Lara Proud - Comment (1) - Release Announcements - 2023-10-10

We're pleased to announce the release of Deskpro Horizon, version 2023.41. This release includes several enhancements to product functionality and bug fixes

### Latest Improvements

You can now quickly edit a Stat by hovering over it on the Navigation Panel in the Reports  Interface

This update lets you access and edit stats in your helpdesk more efficiently (SC 127244).

We added a check to verify the formatting of CSV headers before attempting to run an import to reduce the likelihood of duplicate headings causing a failed import (SC 117125)

### Bug Fixes

The Mass Update Language tool will now let you set the user ticket language to nothing,  (or update from nothing to a language, where previously this action would fail (SC 98249

We fixed an app integration issue where actions weren't performed when sending a reply  or adding a note if using the "and close this ticket" or "and open next ticket" options (SC 104070)
