You can now set colors for the Chat Widget itself, allowing you to customize this feature even more

?How do I set the color

!Simply go into Admin > Chat > Site Widget & Chat, and customize your colors

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and the 'Position' is set to 'Right'. A color picker is open, showing a red color selection. On the right, a preview of the chat widget is shown, featuring the Google logo and a chat window with a 'Sample answer' button. A red arrow points from the '#e60300' color code in the settings to the 'Sample answer' button in the preview. At the bottom of the settings panel, there are 'Discard changes', 'Save', and 'Reset to default' buttons. The preview window includes a 'Sign in' button and a 'Click for help' button.
