How to Download a Process Log

David Pinto - 2023-08-29 - Comments (0) - Admin

Sometimes when troubleshooting a ticket query the Deskpro Support Team may ask for a Process Log from you. In order to access this file and send this over to us, simply follow the steps below:

1. Go to Admin > Channels > Email > Outgoing Email/Incoming Email

2. Locate the email in question, using the Filter to limit certain criteria if needed.

3. Once you have found the email, click on the ticket area:

2 minutes ago	205	~	Ms. Emely Graham Jr. <kole.beatty< th=""></kole.beatty<>
7 hours ago	230	\otimes	David Streich I <orpha.beer@mark< td=""></orpha.beer@mark<>

4. After clicking on the ticket area, a sidebar will open. From there, you can click on **Log**, and you should now see the **Process Log** (underneath the Raw Source), and the option to download the Log:

```
