

Added Hijri calendar (Arabic) for custom date fields (5.5)

2017-03-13 - Lauren Cumming - Comments (0) - Product

You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows the Deskpro interface with a 'New Calendar' dialog box open. The dialog box displays a Hijri calendar grid for the month of Jumada al-Akhirah 1438. The grid shows days from 1 to 28, with the 11th day highlighted. The interface also shows fields for Agent (John Doe), Team (None), Followers (Broderick Mori), Labels (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler), and Language (French).

Widget Type	جمادى الآخر 1438
