

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is set to '#e60300', and a color picker is open, showing a red color swatch. A black arrow points from the color picker to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window with a 'Google UK' logo, a 'Flexforce' header, and a chat history including 'Chat started', 'Chat assigned to Andrew James', and 'Sample question'. The 'Sample answer' button is highlighted with a blue background and a white arrow. Below the preview are buttons for 'Discard changes', 'Save', and 'Reset to default'.
