

Refine Ticket Search with a powerful new filtering sidebar

2022-08-30 - Lara Proud - Comments (0) - Product (Agent)

We have built a 'Refine Search' filter bar in the Agent interface to enhance the functionality of the Ticket Search feature, which helps you to locate a specific ticket in the helpdesk. This advanced filtering ability will allow Agents to refine searches even further to perform highly specific ticket searches.

The screenshot displays the Deskpro Agent interface. On the left is a 'Search' sidebar with a 'HISTORY' section listing recent searches. The main area shows a search results list with two tickets. The top ticket is titled 'Lessons and insights from 8 years of Pixelgrade' (ID 2798) by Cameron Williamson, with an attachment 'Discounted_plan_proposal.pdf' (3.45MB). The bottom ticket is also titled 'Lessons and insights from 8 years of Pixelgrade' (ID 2798) by Brooklyn Simmons, with attachments 'Settings_discounted.pdf' (20.50MB) and 'Settings_discounted2.pdf' (15.00MB). On the right, a 'Refine Search' sidebar is visible, containing filters for Search (Author, Date Written, Message Type), Subject (Ticket Subject), Attachment (File Name, File Content), and Ticket Properties (Assigned Agent, Ticket Owner, Labels).

These are the filters you can now refine a Search by, or perform a Search against:

- **Search:** Ticket Author, Date Written, and Message Type
- **Ticket Subject**
- **Attachment:** File Name, File Content, and File Type
- **Ticket Properties:** Assigned Agent, Ticket Owner, and Labels
