We are really excited to announce that the new *Trello helpdesk integration for Deskpro* is available from v5.6.

What is Trello?

<u>Trello</u> is a collaboration tool that organizes your projects into boards. In one glance, Trello tells you what's being worked on, who's working on what, and where something is in a process.

How do I enable the Trello integration with Deskpro?

From the Admin Dashboard under Apps > Apps you can now install the much anticipated **Trello App**!

Once installed, you will be able to log in with your Trello account and sync this with your Deskpro Helpdesk.

How do I use Trello with Deskpro?

The new app allows you to Search, Pick and Create cards and link them to Tickets - all in one place! You can then see Tickets within Trello cards that appear in the relevant project boards!
