Enabling permissions on macros for Teams Collecting Feedback

- Paul Davies
- **Nom du forum:** #Feature Request

Ability for macros to be restricted for teams rather than just everyone or individual agents.

I would like to create macros, and have the ability to give multiple agents and teams access. Currently this can only be done at a department level.

Macros can be shared with everyone or limited to self. I would be nice to be able to share macros with a specific team.

Can you please enhance the assignment of macros? I would like to assign macros to teams and departments, just like it is possible to assign snippets or filters to teams. Right now I can only configure usage of macro for 'myself' or 'everyone'.
