## Expanded Rule criteria & actions Archived

- GA Gregg Anderson
- **Nom du forum:** #Feature Request

Expand rule criteria to be able to include substrings within the message subject. <br /><br /> <br /><br /> This would allow anything coming in that has a subject tagged with a keyword/code to be auto-assigned to a category/person/etc. <br /><br /> <br /><br /> For actions, expand to allow more actions that you can manually do with a ticket, such as close/delete/pin/etc etc
