## **I would like to be able to create filters and reports for the Flags in tickets Collecting Feedback**

- G Gemma
- **Nom du forum:** #Feature Request

It would be good if you could build a filter on the ticket flags. At the moment they're available to colour code, but you can't create a filter or report to group them all. Can this be added as a feature for future. Thanks

Agent filters should let agents filter tickets by flag (and other criteria).
