

## New Chat Widget colors available

2017-05-30 - Zara Marchesi - Commentaire (1) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a spectrum of colors, with a black arrow pointing from the '#e60300' text to the selected red color in the picker. Below the color picker are 'cancel' and 'choose' buttons. The 'Position' is set to 'Right'. On the right side, a preview window shows the chat widget on a website. The widget includes a 'Sign In' button, a search bar with 'Google UK' and 'I'm Feeling Lucky' buttons, and a chat history with a 'Sample question' and 'Sample answer'. A red 'Click for help' button is at the bottom right of the preview. At the bottom of the settings panel, there are 'Discard changes', 'Save', and 'Reset to default' buttons.
