Export ticket as PDF without notes Finished

- Christian Mattart
- **Forum name:** #Feature Request

Exporting tickets as PDF is possible but it includes the notes.

Hello Christian,

Thank you for your feedback submission. When exporting a ticket to PDF, the notes attached to the ticket are attached.

Thanks again for your submission. If you require any further help, please don't hesitate to contact the DeskPRO helpdesk

I am sorry, but I interpreted this feedback as a request to be able to export a ticket as PDF - without- notes. This would be highly useful when having to forward a conversation to an external party, as notes may contain confidential information.

If this was not the intention of the original feedback request, I can create a new request for this feature :)
