Language for brands Collecting Feedback

It would be nice if there were an option to assign different default languages to different brands

In fact, Deskpro's localisation features are only really useful in our situation if we can select which languages are available for which brands. We manage projects for different clients, each with their own set of contractually required languages. If we can't set the languages available per brand, the only way to avoid users & community asking us questions in their language is by offering the system in English only.
