

## How do I change the number of news posts shown on the portal home page?

Ben Henley - 2023-05-25 - Comments (0) - Deskpro Legacy

### Question:

I want to increase the number of news posts shown on the section of the portal home page highlighted below. How do I show the most recent five articles here?

Help

### Answer:

You can do this by editing the portal templates.

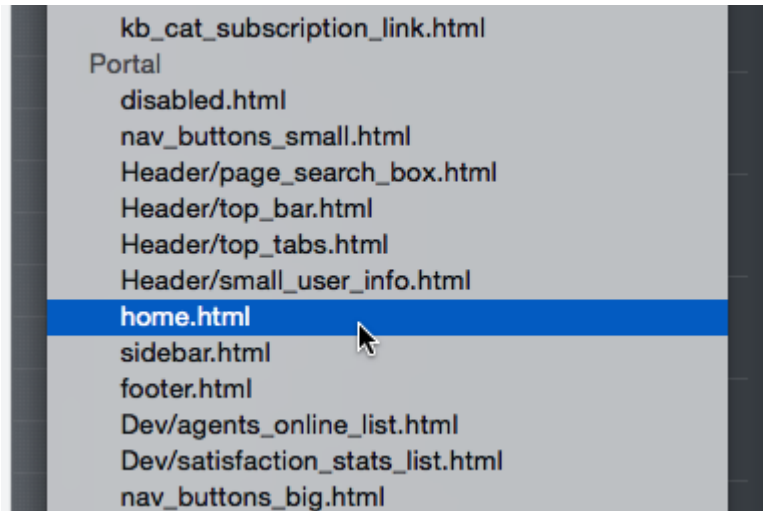

1. Go to the portal editor at **Admin > User Interface > Portal**.
2. Click the **Template Editor** section at the lower left.

The image shows a web application's admin dashboard. On the left is a vertical sidebar with icons for various functions: Admin Dashboard, Setup, Agents, Tickets, Emails, CRM, User Interface (highlighted), Knowledgebase, News, Downloads, Feedback, Guides (disabled), Portal (highlighted), Site Widget & Chat, Ticket Form Widget, Chat, Apps, and Tasks.

The main content area is a settings panel for the 'User Interface' section. It includes sections for:

- THEME
- WELCOME MESSAGE
- LOGO
- FAVICON
- COLORS
  - Brand Primary (blue)
  - Brand Success (green)
  - Brand Info (light blue)
  - Brand Warning (orange)
  - Brand Danger (red)
  - Text Color (black)
  - Text Color Lighter (gray)
  - Link Color (blue)
- FONTS
- PAGE
- PAGE LAYOUT & DESIGN
  - HEADER & FOOTER (selected), HOME, CSS, ASSETS
  - Text: "These templates let you put HTML code at the very top or very bottom of the page."
  - Buttons: Edit Header, Edit Footer, Edit Head Include
- TEMPLATE EDITOR
  - Choose a template dropdown
  - Search results:
    - Search
      - search\_results\_ajax.html (highlighted)
      - search\_results.html
      - search\_macros.html
      - search\_labels\_results.html
    - Portal
      - welcome-box.html
      - sidebar.html

3. In the Portal section, select the **home.html** template.

6. The template editor opens. Find the line that says:

```
{% show section news_list_excerpts with { count: 2, show_category_link: true } %}
```

Edit the number in **count: 2** to the desired number of articles: in this case, 5.

```
33
34     {% if can_use_news() %}
35     <section>
36         <article class="news front-page-news">
37             <div class="large-title">
38                 <h1>
39                     <a href="{{ path('portal_news') }}">
40                         {{ phrase('portal.news.section-title') }}
41                     </a>
42                 </h1>
43                 <p>{{ phrase('portal.news.homepage-desc') }}</p>
44             </div>
45             {% show section news_list_excerpts with { count: 5, show_category_link: true } %}
46         </article>
47     </section>
48     {% endif %}
49
```

7. Click the X at the top right of the template editor to close it.

8. Click the green **Preview Changes** button at the top of the screen to see the effect of the edit and verify that the section now shows five articles instead of two.

9. Click the green **Save Changes** button at the top of the screen to save your edit and apply it to your live portal.
