You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section includes a 'Background color' picker with a color wheel and a text input field containing the hex code '#e60300'. Below the color picker are options for 'Column' and 'Left' alignment, and 'Right' and 'Left' button placement. The right side of the interface shows a preview of the chat widget on a website. The preview includes the Google logo, a search bar, and a chat window with a 'Flexforce' header. A red arrow points from the '#e60300' color input field to the chat widget's 'Click for help' button in the preview. At the bottom of the preview, there are 'Discard changes', 'Save', and 'Reset to default' buttons.
