User Ticket Search Functionality in User Interface Finished

- Lenny LaRose
- **Forum name:** #Feature Request

1.) Please include the Ticket Number in the Search Results.

 2.) The TICKETS section, in search results, shows both OPEN and RESOLVED tickets, which are not shown in their respective categories.

 3. Please provide capability to search on Ticket Number or Keyword, as is possible in the Agent Interface.

 4. When searching on Category or Last Reply, please show those fields in the search results, and add status (OPEN, RESOLVED) as a filter as well.
