How can I make knowledgebase articles visible to specific users only?

Simon Paulger - 2023-09-13 - Comments (0) - Agent

You can restrict Knowledgebase Articles so that only certain users can see them. The easiest way to achieve this is with **usergroups** and Knowledgebase **categories** and then setting up a category so that it's visible only to particular usergroups.

In the agent interface, go to **Help Center > Knowledgebase** and click on a KB category.

On the right-hand side, click on the edit button for the category.

How-to Articles (7)	2 of 6		н
Manage Your Account (5)	3 of 6		
Instructional Videos (4)	3 of 6		

In the dialog that loads, you can select which usergroups can see this category in the **Usergroups** heading.

Category	×
Name	
How-to Articles	
Icon	
Pick Icon Upload Image	
Usergroups	
C Everyone	
Registered	
221B Solar Trial	
🕑 Internal Users	
Contractors	
Support	
Parent Category	
C Knowledgebase	-
Category Order	
How-to Articles	
Manage Your Account	
Instructional Videos	
	Delete

Note

You can have a category that's visible to everyone which contains a restricted subcategory.

To change the usergroups in your helpdesk, go to **Admin > CRM > Usergroups**.

To add users to usergroups, use the **CRM** section of the **Agent** interface.
