

New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section includes a 'Background color' picker with a color wheel and a text input field containing the hex code '#e60300'. Below the color picker are options for 'Column' and 'Left' alignment, and 'Right' and 'Left' button placement. The right side of the interface shows a preview of the chat widget on a website. The preview includes the Google logo, a search bar, and a chat window with a 'Flexforce' header. A red arrow points from the '#e60300' color code in the settings to the chat widget's background, and another red arrow points from the 'Sample answer' button in the chat widget to the 'Right' button placement option in the settings.
