## New Feature: This Season's Designer Labels

2014-10-02 - Ben Henley - Comments (0) - Product

We know that a lot of helpdesks use labels as a key part of their workflow.

Now there's a new way to get even more out of labels: color.

Label *	aphids	#bfe5bf					
	This is the title as it will appear throughout the agent a	Ê

Replace uniform gray labels with your own custom colors, and your agents instantly get more information at a glance:

You can pick from one of 16 predefined colors, or get the precise shade you like by entering a <u>hex color value</u> (we hope 16,777,216 possible colors are enough).

To set this up, go to the **Labels** section for each type of content (e.g. **Admin > Tickets > Labels**).
