How do I create a welcome message for my Help Center?

Matthew Watt - 2023-08-17 - (0) megjegyzés - Help Center

You can add a Welcome Message to your Help Center by going to **Admin > Help Center > Help Center Design.** Under **Theme Options** you will be able to input a Welcome Message title and Welcome Message content.

While editing, a live preview on the right that will update with your changes.

Make sure to press **Save** at the bottom of the screen to push any changes live on your Help Center.

For more information on editing your Help Center, check out our Guide: Help Center Preview and Publishing
