

New Chat Widget colors available

2017-05-30 - Zara Marchesi - (0) megjegyzés - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a spectrum of colors and a 'choose' button. A black arrow points from the 'choose' button to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat window on a website with the Google logo and a 'Flexforce' chat bubble. The chat history includes 'Chat started', 'Chat assigned to Andrew James', 'Sample question', and 'Sample answer'. The chat input field contains the text 'Type your message here...'. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
