New Chat Widget colors available

2017-05-30 - Zara Marchesi - [\(0\) megjegyzés](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' section is expanded, showing a 'Colors' section with a color picker. The color picker is set to a red color with the hex code #e60300. A red arrow points from the color picker to the chat button in the preview on the right. The preview shows a chat widget on a website with a Google logo and a chat button. The chat widget has a white background and a blue chat button. The chat history shows a sample question and a sample answer. The chat button is highlighted with a red arrow pointing from the color picker.
