Deskpro's Help Center can be personalized to reflect your brand using logos, colors, and images. For a more tailored appearance, you can edit the Help Center Templates and CSS. In this guide, we'll show you how to customize the icons on your Help Center's navigation buttons.

In this article, we'll show you how to customize the icons on your Help Center's navigation buttons.

Top Tip

Have your new icons ready before you begin. The recommended format is SVG, but PNG or JPEG will also work.
