How do I assign out-of-hours tickets to a particular team? Manu Marquez - 2024-01-09 - Comments (0) - Triggers

Suppose you want to treat incoming tickets differently if they are created outside of working hours. In this example, we'll show how to assign them to a night shift team.

This is easy to accomplish with triggers. Go to **Admin > Business Rules > Triggers**, add a new Trigger, select the **Event** type and the **Criteria: Date Criteria > Check Business Hours** 

	3

e criteria se	<ul> <li>Ticket fields</li> <li>User fields</li> </ul>		he Ticket.		
When t	<ul> <li>Organization fields</li> </ul>				Ξ.
	Check business hours	<ul> <li>Outside of</li> </ul>	* D	efault	+

## 3 Criteria

The criteria section is a list of terms that must match before the actions are applied to the Ticket.

	Check business hours	✓ Within		•
Or	when the following conditions are me	ıt:		
		a ta t		
Action:	Select s s will apply when all of the criteria pas	<ul> <li>Select</li> <li>S.</li> </ul>	Ŧ	
se action:	<b>s</b> s will apply when all of the criteria pas			
	s			

Note that the "business hours" used will be those **Default Working Hours** in **Admin > Configuration > Business Hours** - but you could choose to specify custom hours just for this trigger.

You'd probably also want the same team to receive *replies* to tickets from users, not just new tickets. To achieve this, create a new Trigger with the event **New Reply** 

Add: New Trigger			×
