

Deskpro 2018.3 Release

2018-10-11 - Christopher Nadeau - Comments (0) - Release Announcements

New and Improved in 2018.3

- DP-2195 — New setting (Admin > Tickets > Settings) to require authentication to view ticket attachments. This currently only works for DB and FS storage; S3 support is coming soon.
- DP-2625 — On cloud, you can now enable social logins for agents easily (Admin > Agents > Auth & SSO). User support coming soon.
- DP-2105 — Pasting a URL into agent search box will show that thing first in the result.
- DP-2348 — Import jobs now show a summary of the last job in the admin interface
- DP-2462 — On-premise includes a new CLI command to find invalid email addresses (dp:utility:invalid-emails)
- DP-2481 — New Zapier trigger for "ticket updated"
- DP-2561 — Language packs updated; enabled new packs for Czech and Indonesian
- DP-2048 — Google auth source now allows you to filter by multiple domains
