DeskPRO Build #409 Released

2015-07-08 - Chris Padfield - Comments (0) - Release Announcements

We are pleased to announce a new release of the DeskPRO helpdesk platform, build #409.

The following is an automatically generated list of changes in this release:

- FIX Possible cron crash once a day caused during a sync routine
- FIX Possible infinite loop if working hours are set with no days selected
- FIX Possible 'no helper AgentPermissions is registered' message on some servers
- FIX Admin: Flag displayed in phone number field was incorrect
- FIX User sources: Phone number from remote user sources was not saved as a phone number properly
- FIX Admin: Default working hours would save properly but would appear incorrect when the form was reloaded

This update has been rolled out to all Cloud customers.

If you are using DeskPRO On-Premise, you can update your installation from the admin interface.
