

## New Chat Widget colors available

2017-05-30 - Zara Marchesi - Comments (0) - Product

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

### How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration interface. On the left, the 'Button settings' panel is visible, featuring a 'Label' field with the text 'Click for help', a 'Size' selector with 'Medium' selected, and a 'Colors' section. The 'Background color' is currently set to '#e60300'. A color picker is open, showing a spectrum of colors and the selected red color. A black arrow points from the color picker to the chat widget preview on the right. The preview shows a chat widget on a website with the Google logo and a chat history. The chat history includes 'Chat started' at 09:32, 'Chat assigned to Andrew James' at 09:32, 'Sample question' at 09:52, and 'Sample answer' at 09:52. The chat widget has a red 'Click for help' button and a blue 'End Chat' button. At the bottom of the preview, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
