## How do I find the ID number of a Deskpro field or other item?

Jake Biddell - 2023-08-29 - [Commenti \(0\)](#) - [Reports](#)

Sometimes you'll need to look up the ID number of a helpdesk item, such as a field you have created. You may need to know an ID when making custom reports or interpreting ticket logs.

To do this, go to the area of the admin interface where the type of content you want is managed. For example, if you need the ID of a Custom Ticket Field, go to **Ticket Structure > Ticket Fields**.

Click the **View** button and make sure the **ID** toggle is on.

The **ID** will be visible on the right-hand side of the table.

**Ticket Fields**

Help

Ticket fields are an easy and flexible way to add information to tickets. Set a field to be visible to agents only or add it to the new ticket form on the Help Center.

1-37 of 37

For some items such as Statuses, you may need to select the item, and the ID will then be visible in the top right-hand corner of the menu:

Edit: Awaiting User

id: awaiting\_user

The Awaiting User status means the ticket is waiting for the user to reply

Ticket count

29

After ticket has been awaiting user for

1

weeks

Send the user an email when they have left their ticket open for some time. Typically these are alerts to tell the user to reply to their tickets, but you can also perform other actions.

Then

the following actions will run

Send email to user
