I'm having a trouble with users being unable to add attachments to tickets

Ben Henley - 2023-09-11 - Commenti (0) - Deskpro Legacy

There are a number of admin settings which can prevent some attachments working.

- 1. In **Setup > Settings**, the **User Attachments** settings will define what file sizes and extensions the user can submit. Check the size and type of file they are submitting is allowed.
- 2. If the control to add attachments is not showing up at the bottom of the **Contact Us** form on your portal:

Attachments

Maximum file size: 5.00 MB Upload a file

make sure that the **Attachments** field is added to the form layout in **Tickets** > **Departments** under the **Layout** tab. Drag the blue Attachments field onto the user form, and check its settings with the gear icon.

There may be a problem with how your Deskpro On-Premise installation is storing files.
