Added Hijri calendar (Arabic) for custom date fields (5.5)

2017-03-13 - Lauren Cumming - [Commenti \(0\)](#) - [Product](#)

You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows a user profile configuration interface. At the top, there are fields for 'Agent' (John Doe), 'Team' (None), and 'Followers' (Broderick Mori). Below these are 'Labels' (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler) and 'Language' (French). The 'New Calendar' dropdown is open, showing a calendar widget for the Hijri calendar. The widget displays the date 1438 and the month of Jumada al-Akhir. The calendar grid shows the days of the week in Arabic (ح, س, ج, خ, ر, ث, ن) and the dates from 6 to 28. The date 11 is highlighted. The widget also includes navigation arrows and the text 'إغلاق' (Close) and 'مسح' (Delete). At the bottom of the interface are 'Save' and 'Cancel' buttons.

Widget Type	جمادى الآخر 1438						
Widget Description	ح	س	ج	خ	ر	ث	ن
Desired Sizes	6	5	4	3	2	1	
Manufacture Date	13	12	11	10	9	8	7
	20	19	18	17	16	15	14
	27	26	25	24	23	22	21
						29	28
