

## Added Hijri calendar (Arabic) for custom date fields (5.5)

2017-03-13 - Lauren Cumming - Commenti (0) - Product

You can now choose between the option to use a Gregorian or Arabic calendar for custom date fields.

The screenshot shows the 'New Calendar' dialog box in the Deskpro interface. The dialog box is open over a main form that includes fields for Agent (John Doe), Team (None), Followers (Broderick Mori), Labels (bartell inc, bayer-o'kon, flatley-bednar, hahn ltd, kessler), and Language (French). The 'New Calendar' field is currently empty. The dialog box displays a Hijri calendar for the month of Jumada al-Akhir 1438. The calendar grid shows days from 1 to 28. The 11th day is highlighted. The dialog box also includes navigation arrows and a 'Save' button.
