

Group Custom Reports Collecting Feedback

- David Jones
- フォーラム名: #Feature Request

I would like the ability to create sub groups for custom reports. Right now all custom reports are in a giant group.

We would like this too. Permissions around what departments are available for people to report on would be a nice feature.

I'd like to fold my custom reports in a folder because our list becomes increasingly long as agents are creating their own reports. Or may be allow filters so I could only see reports i created?' Thanks,' Louis
