Warnings during update (via CLI-Updater) Finished

- CC Christopher Callaham
- フォーラム名: #Feature Request

Every few upgrades I get warnings in the command line upgrader

 Warning:
rmdir(C:\inetpub\wwwroot\betadesk\app\sys\cache\twig-compiled\54): Directory not empty in
C:\inetpub\wwwroot\betadesk\app\vendor\symfony\src\Symfony\Co

mponent\HttpKernel\Util\Filesystem.php on line 98

 Warning:
rmdir(C:\inetpub\wwwroot\betadesk\app\sys\cache\twig-compiled\49): Directory not empty in
C:\inetpub\wwwroot\betadesk\app\vendor\symfony\src\Symfony\Co

mponent\HttpKernel\Util\Filesystem.php on line 98

 Warning:
rmdir(C:\inetpub\wwwroot\betadesk\app\sys\cache\twig-compiled): Directory not empty in
C:\inetpub\wwwroot\betadesk\app\vendor\symfony\src\Symfony\Compo

nent\HttpKernel\Util\Filesystem.php on line 98

 I think the upgrade actually finishes but I don't
know if the causes any issues when they happen.
