Xero Integration Finished

- AJ Azeem Javed
- フォーラム名: #Feature Request

It would be nice if there was a direct Xero integration.

Currently integrations need to be made through Zapier.

Deskpro's Xero integration is available to install. To add Xero to your helpdesk, go to the Admin interface, select Apps & Integrations > Apps, click on the Available tab, then select Xero from the list and follow the instructions on the Setup tab to install. You can find out more about the integration on our App Library:
www.deskpro.com/apps/xero
