

How do I change the number of news posts shown on the portal home page?

Ben Henley - 2023-08-31 - Comments (0) - Deskpro Legacy

Question:

I want to increase the number of news posts shown on the section of the portal home page highlighted below. How do I show the most recent five articles here?

The screenshot shows the Deskpro Legacy portal home page. At the top, there is a navigation bar with 'AGENT' and 'ADMIN' links. Below that, a welcome message reads 'Welcome to our new Portal. Learn more about about it here -->'. The main content area features a 'Helpdesk' header with a search bar and a 'CONTACT US' button. Below the header are five navigation cards: 'Knowledgebase', 'News', 'Feedback', 'Downloads', and 'Contact Us'. The 'News' card is highlighted with a red box. Below the 'News' card, there is a list of news articles. The first article is titled 'Iste sunt dolorem laudantium aut' by Mozell Romaguera. The second article is titled 'Ut quisquam dolor est quibusdam' by Michele Kessler. Below the news section is a 'Knowledgebase' section with a list of articles. A 'Help' button is visible in the bottom right corner.

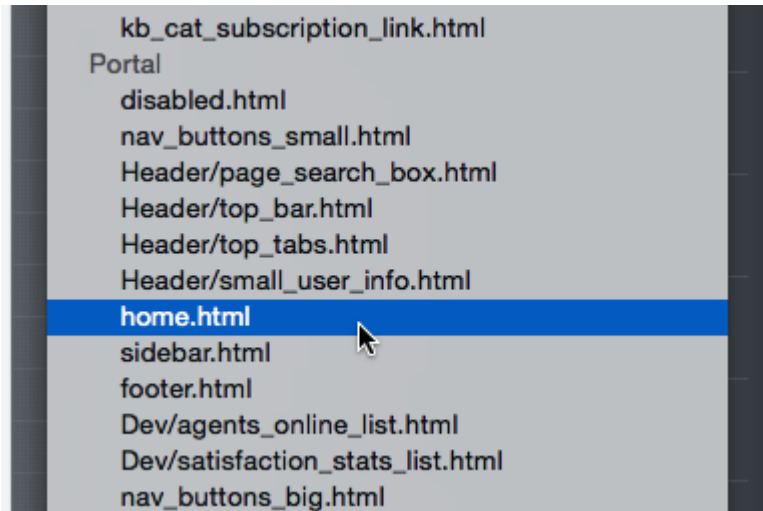

Answer:

You can do this by editing the portal templates.

1. Go to the portal editor at **Admin > User Interface > Portal**.
2. Click the **Template Editor** section at the lower left.

3. In the Portal section, select the **home.html** template.

6. The template editor opens. Find the line that says:

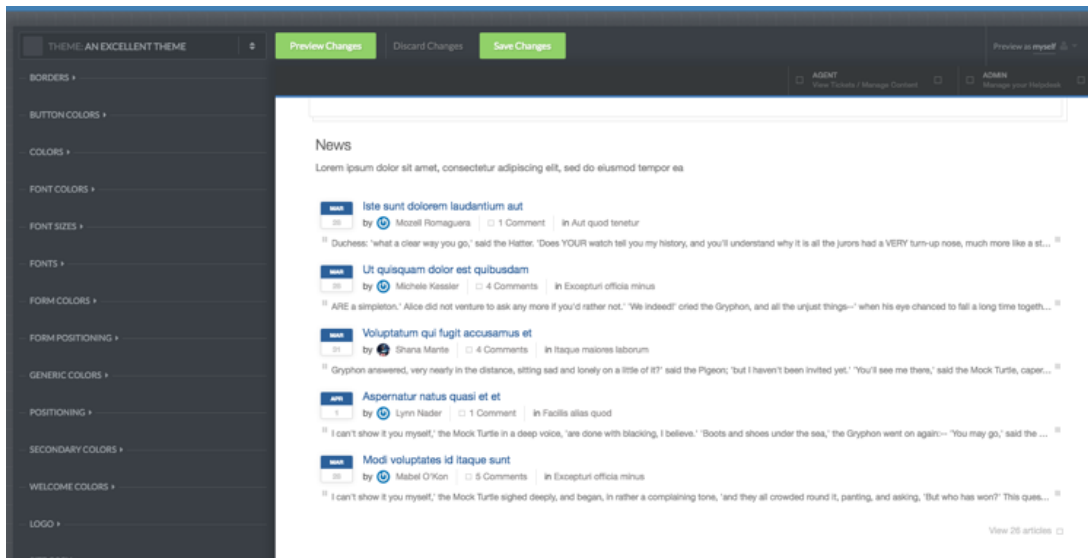

```
{% show section news_list_excerpts with { count: 2, show_category_link: true } %}
```

Edit the number in **count: 2** to the desired number of articles: in this case, 5.

```
33
34     {% if can_use_news() %}
35     <section>
36     <article class="news front-page-news">
37     <div class="large-title">
38     <h1>
39     <a href="{{ path('portal_news') }}">
40     {{ phrase('portal.news.section-title') }}
41     </a>
42     </h1>
43     <p>{{ phrase('portal.news.homepage-desc') }}</p>
44     </div>
45     {% show section news_list_excerpts with { count: 5, show_category_link: true } %}
46     </article>
47     </section>
48     {% endif %}
49
```

7. Click the X at the top right of the template editor to close it.

8. Click the green **Preview Changes** button at the top of the screen to see the effect of the edit and verify that the section now shows five articles instead of two.

9. Click the green **Save Changes** button at the top of the screen to save your edit and apply it to your live portal.
