How do I generate a report that doesn't include tickets created on the weekend?

John Davison - 2023-08-29 - [Comments \(0\)](#) - [Reports](#)

For organizations that only provide support from Monday to Friday, it makes sense to exclude data from the weekend in reports to accurately develop a picture of helpdesk performance.

If you'd like to create a report that excludes tickets that were created at the weekend, add the following to the WHERE line in your DPQL query

As you can see, this sets conditions on which days of the week are included in the report by excluding 5 = (Saturday), and 6 = (Sunday).

Note

0 = Monday, 1 = Tuesday, 2 = Wednesday, 3 = Thursday, 4 = Friday, 5 = Saturday, 6 = Sunday.

For example, here is an example of a report which will give you a list of tickets created in October, grouped by agent, whilst excluding tickets created on the weekend.

Download as CSV	Agent	ID	Status	Date Created
	Alyce Gusikowski	43	resolved	Tue, 12th Oct 2021 6:15pm
	Brett Crist	37	resolved	Tue, 19th Oct 2021 11:45am
