

Deskpro Horizon Release 2024.8

2024-02-21 - Lara Proud - Comments (0) - Release Announcements

We're pleased to announce the release of Deskpro Horizon, version 2024.8. This update includes some improvements and several bug fixes.

New Features

(SC 138902).

☐ We've updated permissions so only Admins can change agent contact information from
the CRM (SC 141906).
☐ Handling has been added to block SMS messages sending if the number is not registered

Latest Improvements

Added the ability to remove field mapping options during CSV import (SC 135868).

Bug Fixes
☐ Resolved an issue where the reason for deletion wasn't saved in the Ticket History when the action was taken using a Mass Action or Macro (SC 108089).
the detion was taken asing a mass Action of Macro (Se 100005).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\hfill \Box$ Fixes an issue where inline images wouldn't display in ticket messages because the toker access had expired (SC 142118).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
☐ Corrected a permissions error where agents with relevant permissions couldn't mark tickets as spam using a Mass Action (SC 139409).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $

☐ Added a Load more button to Snippets to replace the auto-scroll loading behavior (SC 137424).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
☐ Fixed the Mass Action option to Run Macro (SC 142909).
$\hfill\Box$ The name field on the Chat form can now be unrequired, so users don't have to fill this in when initiating a Chat (SC 139890).
☐ Resolved an issue where Recurring Tickets couldn't be created or saved (SC 137380).
☐ Fixed an issue where dependent fields would load slowly (SC 138667).
$\hfill \square$ Updated the display of the Properties Panel tabs to align with the design (SC 140782).
$\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
Resolved an issue with the CSV importer removing associated domains when importing an existing Organization if Replace all values was selected (SC 138347).
$\hfill \square$ Authentication Cookies will be issued even if an agent skips setting up 2FA (SC 143155 & 143183).
$\hfill \square$ Updated the User 2FA success messages for Email and TOTP (SC 134954).
$\hfill \square$ Resolved an issue where using links in ticket messages would disappear from the ticket thread after sending (SC 143130).
