Deskpro

Add 'Relative Date' to a Trigger Action for Tasks Finished

- Eric VanTol
- **포럼 이름:** #Feature Request

The 'Create Task' trigger action would be a lot more useful if a relative date could be used, such as, "Today", "Tomorrow", or "X minutes/hours/days/etc. from now". As it is, it's not a useful action to use since a specific date and time needs to be entered.

This would indeed be a great addition.
