### Can I change the text used on the Help Center outside of the Publish app content?

Yes, you can change almost all of the user-facing text on the Help Center and in emails using the Deskpro phrases system.

To do this, go to **Admin > Configuration > Phrase Translation**. To the phrase you want to change, you can use the **Search box** on the page or **Ctrl-F / Cmd-F** keyboard shortcuts to search for the phrase on each page.

Phrase	English	Customized?
<b>Ticket Queues and Sets (27)</b>		
obj_ticketfilter.10_title	Mine	✓
obj_ticketfilter.11_title	I'm Following	✓
obj_ticketfilter.12_title	My Team's	✓
obj_ticketfilter.13_title	My Pending	✓
obj_ticketfilter.14_title	Live	✓
obj_ticketfilter.15_title	Unassigned	✓
obj_ticketfilter.16_title	Unassigned	✓
obj_ticketfilter.17_title	Pending	✓
obj_ticketfilter.18_title	All Open	✓
obj_ticketfilter.19_title	All New Tickets	✓
obj_ticketfilter.20_title	SLA Warning	✓

In the **Text box**, enter your changed version of the text and click **Save**. If you have more than one language installed on the helpdesk, you will need to define the change for each language.
