## How do I set a default department for tickets submitted via the user portal?

Lauren Cumming - 2023-08-31 - Comments (0) - Deskpro Legacy

To set a default department for the ticket form in your user portal, go to **Admin > Tickets** > **Departments.** 

Default departments	
The default department is pre-sele	ected in new ticket forms
Default department for agents	s:
Default department for users:	
L	

Here there is the option to select the default department for users so that when they access the contact form via the user portal, this department will be pre-selected e.g Support rather than Sales.
