New Chat Widget colors available

2017-05-30 - Zara Marchesi - [댓글 \(0\)](#) - [Product](#)

You can now set colors for the Chat Widget itself, allowing you to customize this feature even more!

How do I set the color?

Simply go into Admin > Chat > Site Widget & Chat, and customize your colors!

The screenshot displays the 'Site Widget & Chat' configuration page. On the left, the 'Button settings' section is expanded, showing options for 'Label' (set to 'Click for help'), 'Size' (set to 'Medium'), and 'Colors'. The 'Colors' section includes a 'Background color' picker with a color wheel and a text input showing the hex code '#e60300'. A black arrow points from the 'Background color' label to the color wheel. Another black arrow points from the 'Background color' section to the 'Sample answer' button in the chat widget preview on the right. The preview shows a chat interface with a 'Google' logo, a search bar, and a chat history with a 'Sample question' and 'Sample answer'. At the bottom of the settings panel, there are buttons for 'Discard changes', 'Save', and 'Reset to default'.
