## New Feature: Quick Actions

2014-11-03 - Ben Henley - Comments (1) - Product

We're always looking for ways to make the agent interface faster and easier to use. Even though DeskPRO is web-based, we want working in your helpdesk to feel like you're using your favourite productivity software, not filling in a series of forms.

Our latest improvement is **quick actions** for tickets. Just hover your mouse over the title of a ticket in the list pane, and you'll see that the pop-up lets you carry out the most common ticket actions.

You can assign a ticket to yourself, or to any agent or team, or change its status.

<b>#7</b>	Awaiting Agent 1					
	Amy Gentl					
De	User reports is	ssue with "grem	eam			
	Assign Agent -	Assign Team 🔻	Set Awaiting User	Set Resolved		
				Ψ.		
				Q		
		S 1st Level				
		2nd Leve				
		Support				

As in previous versions, the pop-up shows you the last message on the ticket; now you can also see how old the message is, so you can see at a glance whether it's still relevant.

Hello! This feature seems very promising but how comes that ther is no shortcut to assign a department? This would be very time-saving! Thanks!
