Ability to create unique date drop downs in reports Collecting Feedback

- Lauren Cumming
- **Forumo pavadinimas:** #Feature Request

Ability to add own %1:DATE_GROUP% value to the drop down menu in reports. E.g make a date range '2016-05-01' to '2016-06-01' and name it a Specific Range on the pull down menu

The ability to drop down select date ranges would be a very helpful reporting tool!

This is a very basic function that any reporting system should be able to support, for those that are not experienced with transact languages.
