Filter Order and Re-Order Collecting Feedback

- Steve, Lam Hang
- **Forumo pavadinimas:** #Feature Request

I like the re-ordering of the "All Filters" list in Admin, but when I select the "Agent Filters" or "Team Filters" I cannot re-order the filter. For example, if I select the "Team Filters" and I want to re-order them, I cannot. I have to view "All Filters" in a very long list. It's difficult to find each one to re-order and move around. Managing a smaller list compared to a larger list is more convenient.
